

# GOTOCONNECT AND CLIO

*Boost productivity and automatically capture more billable hours.*

Never miss another billable hour. GoToConnect is more than a phone system - it's a communication platform that boosts your productivity and tracks every billable communication.

## **Record More Billable Time**

Recording billable hours can be difficult and time consuming, but it doesn't have to be. With GoToConnect Clio integration, law firms can automatically track client communications, ensuring billable activities are accurately recorded. When a client calls you, a pop-up screen displays the client's information along with recent notes, making it easier to be informed of the client's situation.

## **Ensure Compliance**

Mitigate risk by eliminating mistakes. Automatically record every interaction with your clients. Avoid negligence by reducing administrative errors and preventing missed filing deadlines. Ensure compliance by capturing every note, recording each call, providing secure client communications, and generating video conference transcripts.

## **Create Better Work-Life Balance**

Improve work-life balance by simplifying the way you run your practice with GoToConnect's desktop phones, softphones, mobile apps, and frictionless conference rooms. Be more efficient with your time by securely communicating with clients wherever they may be - via phone, text, or video conference. This boost in productivity will help eliminate wasted hours at the office and give you more time for what matters most.

***"Billable leakage costs firms as much as \$20,000 - \$40,000 annually, per individual."***

- Study by Adam Smith Esq and Smart Time

***"\$19,000 lost due to mobile device calls not being accurately tracked - per partner, per year."***

- American Bar Association
