

GOTOCONNECT IS THE PHONE AND MEETING SYSTEM FOR OPTOMETRY OFFICES

GoToConnect is more than a phone system. Check out how GoToConnect empowers your optometry office's communications and improves your patients' experiences whether you're in the office or not.

Care Provider

Use your cell phone to return calls and texts from your business number, manage voicemail, and gather patient contact data.

Business Office

Route calls directly to the right person in your office. Automatically route calls based on hours of operation.

Office Manager

Better train employees and document patient interactions with call monitoring tools and call recording.

Billing/Insurance

Direct insurance companies to the right phone line. Streamline fax transmissions by sending and receiving them via email.

Front Desk

Never miss a call again. Auto attendants route patients to the right person without bogging down your staff.

Campaigns

Examine incoming calls, own multiple phone numbers for targeted marketing campaigns, and track their performance.

"We are saving 61% in cost every time we implement LogMeIn's GotoConnect at one of our locations over other hosted solutions. LogMeIn is a vital solution for Tenet Healthcare, which we depend on more every day."

— Don Preston, Consultant for Tenet Healthcare
