

GOTOCONNECT FOR K12

Use GoToConnect to help secure your school and provide better education anywhere.

Public Access Control

Enhance school communication and security by utilizing audio and video capabilities.

Remote Alert and Lockdown

Lock down your school in an instant from any device, no matter where you are.

Instant Connection

Easily integrate endpoints like panic buttons so they connect immediately to emergency services.

Easy Management

Add zones and locations and change configurations with a few clicks using a computer or phone.

Alert Students and Staff

Ensure everyone on campus is alerted to an emergency using integrated loudspeakers, paging, and bells.

Broadcast Announcements

Use GoToConnect to scale and configure bells, paging, and phones to broadcast announcements and alerts during an emergency.

Virtual Learning

Use GoToConnect's video conferencing to host secure classes virtually when students and staff can't meet in person.

GoToConnect gives districts a comprehensive communications solution while also upgrading school safety without an expensive overhaul. GoToConnect seamlessly integrates with your paging systems so you can coordinate a school-wide emergency response.
