

# GOTOCONNECT IS THE PHONE AND MEETING SYSTEM FOR VETERINARY OFFICES

GoToConnect is more than a phone system. Check out how GoToConnect empowers your veterinary office's communications and improves your patients' experiences whether you're in the office or not.

### Care Provider

Use your cell phone to call and text from your business number, hold video meetings, and gather pet owners' contact information.

### Business Office

Route calls directly to the right person in your office. Automatically route calls based on hours of operation.

### Office Manager

Better train employees and document interactions with pet owners by using call monitoring tools and call recording.

### Billing/Insurance, and Kennel

Direct insurance companies to the right phone line. Streamline fax transmissions by sending and receiving them via email.

### Front Desk

Never miss a call again. Auto attendants route patients to the right person without bogging down your staff.

### Campaigns

Examine incoming calls, own multiple phone numbers for targeted marketing campaigns, and track their performance.

*"We are saving 61% in cost every time we implement LogMeIn's GotoConnect at one of our locations over other hosted solutions. LogMeIn is a vital solution for Tenet Healthcare, which we depend on more every day."*

— Don Preston, Consultant for Tenet Healthcare
