

Professional Backup

Nordic Backup Professional Backup protects all of your organization's computers, servers, and critical databases from data loss with automatic, universal cloud backup. The service comes with 24/7 US-based customer support. Advanced modules like VMware & Hyper-V VMs, Hosting, Image Backup, and Microsoft Office 365 can be added for a low monthly fee per server.

Nordic Backup Professional Backup is the most comprehensive program of its kind. Our IT staff will evaluate your backup and restore needs from top to bottom and ensure your organization can get back up and running quickly after data loss of any magnitude.

We'll work with you to identify the data your organization needs to get back up and running quickly and create a backup set that allows for rapid restore of your most important daily routines. With Nordic Backup Professional backup you can rest assured one of our IT pros is at your service when you need us.
